Problem Statement:
Underprivileged college students face significant challenges in accessing essential services such as healthcare, housing, part-time employment, and education. These obstacles create disparities in their well-being, limiting their ability to focus on academics and achieve success.

Solution:
EduAid, a dedicated platform, seeks to empower underprivileged college students by offering a comprehensive support system. The platform provides access to essential services like medical assistance, affordable housing, job opportunities, and education resources, enabling students to succeed academically without the burden of unmet basic needs.

Enterprises:
1. **Medical**: Offers healthcare services, consultations, and wellness programs to ensure students' physical well-being.
2. **Higher Education**: Provides academic resources, graduate school guidance, and scholarship information to support students' educational growth.
3. **Accommodation**: Facilitates access to both temporary and permanent housing solutions for students facing housing challenges.
4. **Job**: Connects students to part-time and full-time employment opportunities, supporting financial independence and career growth.

Organization:
1. **Physical and Mental Health**: Delivers healthcare services, fitness resources, and mental health counseling to promote student well-being.
2. **Emergency Healthcare Services**: Provides immediate medical assistance and resources for urgent health issues, ensuring that students have access to emergency care when needed.
3. **Graduate School**: Assists with graduate school details and program guidance to help students advance their education.
4. **Temporary Housing**: Provides short-term housing options for students in immediate need of accommodation.
5. **Permanent Housing**: Helps secure long-term housing for students facing homelessness or housing insecurity.
6. **On Campus jobs**: Matches students with part-time jobs to support their financial needs while they continue their studies.

7. **Full-Time Placements**: Assists students in finding full-time employment opportunities for long-term career success.
8. **Neighborhood Review System**: Allows students to rate neighborhoods based on safety, affordability, and amenities, helping others make informed housing decisions. Property owners and landlords can also view student feedback and address complaints, ensuring accountability and transparency.

Roles:

1. **Admin**: Oversees platform operations, manages user accounts, monitors activities, and ensures smooth functioning of services.
2. **Doctor**: Provides medical consultations, health awareness, and guidance on physical well-being for students.
3. **GradSchool Support**: Assists students with graduate school applications, program guidance, scholarship information, and preparation for higher education.
4. **Job Assistance**: Facilitates access to job opportunities, resume building, and career counseling to support financial independence.
5. **Lab Assistance**: Provides support for academic or technical lab sessions, especially for students pursuing STEM fields.
6. **Physical and Mental Health Support**:Physical health focuses on wellness programs, fitness resources, and ensuring students maintain a healthy lifestyle. Mental health offers counseling services, resources for stress management, and emotional support to students.
7. **Part-Time Job Placement**: Helps students find part-time jobs, allowing them to support themselves while continuing their education.
8. **Permanent Housing Assistance**:Works to secure stable, long-term housing for students facing housing insecurity or homelessness.
9. **System Administration**: Manages the technical aspects of the platform, including maintenance, security, and resolving technical issues.
10. **Temporary Housing Assistance**: Provides short-term housing solutions for students in immediate need of accommodation.
